

Commodity Supplemental Food Program State Plan FFY 2005

INTRODUCTION:

The Missouri Department of Health and Senior Services, Division of Community Health, Section for Community Health, Community Food and Nutrition Assistance is submitting the required information to amend the State Plan to administer the Commodity Supplemental Food Program (CSFP) in Missouri for federal fiscal year 2005. The program operations remain substantially unchanged from previously submitted plans. Goals and objectives for the coming year and plans for program expansion are provided as well as the current list of local agencies and distribution sites. In the fall of 2004, the Department will conduct a Food Program Survey to facilitate establishing a statewide systematic process to assess client needs and to assess the effectiveness of nutrition education provided.

GOALS AND OBJECTIVES FOR FEDERAL FISCAL YEAR 2005:

Goal 1 – FFY 05: Provide continuing resources, training and support to assure effective and efficient operations of the CSFP in Missouri.

Strategies:

1. By May 30, 2005, convene a statewide CSFP conference to highlight information gleaned from the National CSFP conference and updates to policies and procedures.
2. Provide ongoing monitoring and oversight of CSFP contractors and their administrative claims.

Goal 2 – FFY 05: Improve the nutritional health status of women, infants, children and older adults participating in the CSFP.

Strategies:

1. By November 30, 2004, conduct the Food Program Survey at randomly selected sites in areas served by the St. Louis Area FoodBank and the Bootheel Food Bank.
2. By March 31, 2005, analyze and summarize the results of the Food Program Survey.
3. By June 30, 2005, propose a statewide systematic process to assess client needs and the effectiveness of nutrition education provided.
4. Collaborate with Healthy Communities Nutrition Education Initiative counties, Local Public Health Agencies, Area Agencies on Aging, University of Missouri Extension and other organizations to provide hands-on nutrition education to CSFP participants.
5. Enhance the quality of nutrition education provided to CSFP participants on an on-going basis.

PLANS FOR PROGRAM EXPANSION:

MDHSS is requesting total caseload authorization of 15,000 for the calendar year 2005. Additional caseload authorization of 5,000 cases per month is requested to serve elderly persons. Missouri will qualify to request additional caseload because the average distribution for October 2003 through May 2004 has been 10,537 and will continue between 9,000 and 10,000 for the remaining months. The chart at [attachment 1](#) provides details including local agency requests and elderly statistics.

The Missouri Department of Health and Senior Services is not requesting caseload for women, infants or children because the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) is able to serve all applicants. However, eligible women, infants or children who apply for CSFP are served or placed on waiting lists in accordance with the regulation. Currently this equals 72 individuals statewide.

CHANGES IN PROGRAM OPERATION:

Local Agencies and Distribution and Certification Sites are listed in [attachment 2](#). Site lists are also available, by county, at http://www.dhss.mo.gov/csfp/sites_csfp.htm. Senior facilities that only serve their residents are not listed on the World Wide Web.

Community Food and Nutrition Assistance (CFNA) has developed a survey for the Commodity Supplemental Food Program designed to evaluate current nutrition education efforts and the population being served. The survey protocol has been granted exemption by the MDHSS Internal Review Board and will be administered during the fall of 2004. The results of this survey will be used to develop a statewide systematic process to assess client needs and effectiveness of nutrition education provided. This survey will provide a means of participant input and process data regarding nutrition knowledge, food security and other limitations experienced by participants so that the program can be tailored to meet their needs.

The survey instrument ([attachment 3](#)) is a questionnaire that has been evaluated at a fifth grade reading level. Food security questions were derived from the Harvard Women's Nutrition Questionnaires and other items such as fruit and vegetable consumption and weight, from CDC Youth Behavioral Risk Factor Survey or YBRFSS. Descriptive questions are per standard DHSS surveys. Constructs include participant's perceptions of handouts they currently receive with the food boxes, what types of information or classes they would like, any physical plant limitations such as water, electricity, food security, nutrition knowledge, and fruit/vegetable consumption on a 5-point Likert scale.

The specific objectives are to:

- I. Describe the population currently served by the CSFP program by age, gender, race;
- II. Allow the participant input into the program in a systematic and scientific way;
- III. Determine whether contents of food packages can be prepared and utilized by the participants;

- IV. Determine whether there are patterns of physical limitations such as running water, electricity, cooking equipment, refrigerator space;
- V. Determine whether the participants respond with more food security consequent to receiving the supplemental commodity foods;
- VI. Determine fruit and vegetable consumption, and focus on methods to increase this as part of a statewide 5-Aday intervention initiative;
- VII. Characterize the population by self-report as to weight status; and
- VIII. Describe those individuals who refuse to participate in order to re-frame questions and procedures to include as many people as possible.

PROPOSED BUDGET:

MDHSS has prepared the proposed budget for FFY 05 ([attachment 4](#)) based on the current per caseload rate of \$52.64. The administrative budget request totals \$52,606. While this amount is greater than those allowed under the formula in 7 CFR 247.10(b)(5), it is less than 10% of the total statewide funding.

The Missouri Department of Health and Senior Services requires these funds to provide financial management, commodity control, participant reporting, technical assistance, and contractor monitoring. The remaining funds will be distributed to the local agencies. The amount retained does not impose undue hardship on the local agencies.

In order to establish contracts with local agencies prior to October 1, 2004, amounts are based on the current per caseload rate of \$52.64. Amendments will be processed at a later date to adjust contracts to the per caseload rate established for FFY 2005 as well as to adjust caseload if the requested increase is approved.

Food Program Survey

We are using this survey to improve the Missouri Commodity Supplemental Food Program. Your answers will be kept strictly confidential and will not affect your benefits.

Age: _____ **Sex:** ☐ Male ☐ Female **Zip Code (Home address):** _ _ _ _ _

Ethnicity: ☐ Hispanic or Latino ☐ Not Hispanic or Latino

Race: (Please mark one or more)

☐ American Indian or Alaska Native ☐ Asian ☐ Black or African American

☐ Native Hawaiian or Other Pacific Islander ☐ White

Please check mark the column that indicates how you feel about the items below.

	Strongly Agree ₁ 	Agree ₂ 	Neutral ₃ 	Disagree ₄ 	Strongly Disagree ₅ 
1. I would like to know more about good nutrition and healthy eating.					
2. I need to know how to prepare the food in my monthly food box.					
3. The handouts I receive with my monthly food boxes are easy to read and understand.					
4. The handouts I receive with my monthly food boxes help me eat right.					
5. The handouts I receive with my monthly food boxes help me use all the food provided.					
6. I would attend a class on nutrition or cooking.					
7. I have problems with lack of running water.					
8. I have problems with lack of electricity.					
9. I have limited cooking equipment.					

PLEASE TURN OVER

Please check mark the column that indicates how you feel about the items below.

	Strongly Agree ₁ 	Agree ₂ 	Neutral ₃ 	Disagree ₄ 	Strongly Disagree ₅ 
10. I have limited refrigerator space.					
11. In the last 12 months I have worried about having enough money to buy food.					
12. In the last 12 months I cut the size of meals or skipped meals due to lack of money for food.					
13. I can buy fresh fruits and vegetables any time of the year.					
14. Eating a good diet can help keep me healthy.					
15. For good health I should eat at least 5 servings of vegetables and fruits every day.					
16. For good health I should eat at least 2-3 servings of meat or protein every day.					
17. Check the number of servings of vegetables and fruits you eat each day. ☐₁ 1-2 ☐₂ 3-4 ☐₃ 5 + ☐₄ 0 ☐₅ Don't Know/Unsure 18. How do you describe your weight? ☐₁ Very underweight ☐₂ Slightly underweight Current weight: _____ ☐₃ About the right weight ☐₄ Slightly overweight Current Height: _____ ☐₅ Very overweight 19. Would you like to receive other information with your food boxes? 20. Do you have comments or concerns about the program in general?					

THANKS FOR YOUR HELP
